

UNBEATABLE

IS HOW WE CERTIFY OUR RANGE OF LUBRICATING PASTES

Yes, when it comes to high performance products for demanding applications involving temperatures, load, friction and wear, ASV offers a vast range of products for assembly and anti seize applications.

ASV lubricating pastes including copper based thread pastes, metal free pastes and MoS₂ based pastes for threaded parts, assembly, running in, press fitting applications.

Contact info@asvmultichemie.com for additional information on our range of products.

TOP INDIAN REFINERIES AND STEEL MAKERS ALSO CERTIFY THE SAME

The **MOLYSULF** range of lubricating pastes from ASV are specifically formulated to perform and react tribo chemically with metal surfaces to form thin, adhesive, high film strength protective layers of compressed solid lubricants between contact surfaces and eliminate metal-to-metal contact, prevent wear, friction, seizure especially where high surface pressures, high temperatures, low operational speeds, aggressive and harsh operating conditions exist.

MOLYSULF					
PRODUCT	TYPE	COLOR	DROP POINT °C	SERVICE RATING °C	FOUR BALL TEST WELD LOAD
A 120 Paste	Metal free, high purity, assembly paste for special steels	Black	None	-40 to +1400	4400
ASTC Paste	Copper, solid lubricants based thread paste	Brown	None	-30 to +1100	4800
RG Paste	MoS ₂ , white solid lubricants based assembly paste	Grayish	None	-25 to +450	2800
