## **CHARGE®** Oil Treatment

Wynn's Charge® is a product that stops excessive oil consumption.

### Properties

- ✓ Improves the viscosity index of lubricating oils.
- ✓ Strengthens the oil film at high temperatures and in case of heavy load.
- ✓ Restores compression and oil pressure.
- ✓ Stops excessive oil consumption and exhaust smoke due to this oil consumption.
- ✓ Ensures a solid lubricating film, also on older engines.
- ✓ Reduces motor noises.
- ✓ Is compatible with all mineral and synthetic, single- and multigrade oils.
- ✓ Does not harm catalytic converters.

### Applications

- ✓ Especially effective under heavy load, high temperature operation and excessive engine noise.
- ✓ Recommended for all petrol and diesel engines of vehicles and stationary equipment with high oil consumption, low oil pressure and low compression.
- ✓ Especially effective in older engines.
- ✓ In case of long-distance driving, hot summer weather, driving in the mountains, towing a caravan.

### Directions

- ✓ Add to the engine oil via the oil-filler inlet, preferably to fresh oil and engine at operating temperature. After adding, let the engine idle for 10 minutes.
- ✓ One can of Wynn's Charge® (400 ml) treats up to 6 litres of engine oil.
- ✓ Can be used in between two oil changes or with an oil change.
